Installation Instructions

Important Safety Instructions

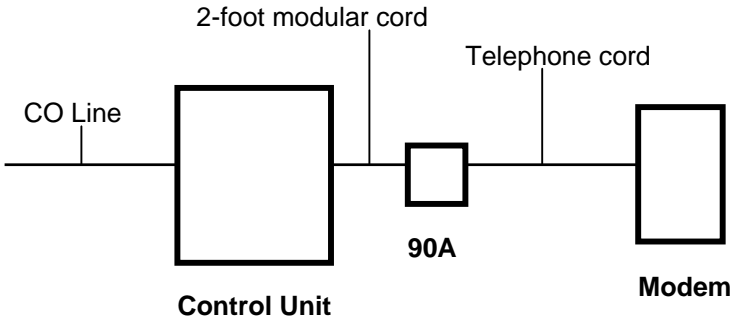

Always follow these basic safety precautions when installing the Model 90A Attenuator:

1. Read and understand all instructions.
2. Never touch uninsulated telephone wires or terminals, unless the telephone line has been disconnected at the network interface.
3. Use caution when installing this product on telephone lines.
4. DO NOT install this product on telephone wiring during a lightning storm.
5. Never install this product in a wet location.

Save these instructions

Installation

1. Refer to the diagram below for placement instructions. Be sure to use the 2-foot 4 conductor (D4BU) modular cord supplied with the Attenuator (Comcode 107864456).
2. Connect one end of the 2-foot D4BU cord to a modular jack on the Attenuator.
Connect the other end of the cord to a station jack on the control unit.
3. Connect the modular cord from the modem to the other modular jack on the Attenuator.
