

Time Change Instructions for Partner Plus.

Discription

This system programming procedure sets the time that appears on system display phones.

Considerations

Enter the time in 24-hour notation. In this scheme, the hours of the day are 0000 (12 midnight) to 2359 (11:59 p.m.). Since each must have four digits, use leading zeros when necessary. For example, to set the time to 9:00 a.m., enter 0 9 0 0. For 4:45 p.m. enter 1 6 4 5.

Programming

1. To Change System Time:
2. Press Feature 0 0 System Program System Program # 7 0 3.
3. Enter a new time in 24-hour notation. For example, to set the time to 2:15 p.m., press 1 4 1 5. The display reads:

System Time
Data 1415

4. This time appears on system display phones as 2:15 p.m.
5. Select another procedure or exit programming mode.
