### **Making Calls**

<NOTE>

Off-Hook: Lift the handset On-hook: Replace the handset

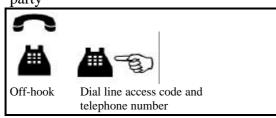

#### Intercom Calling

Allows you to call another extension

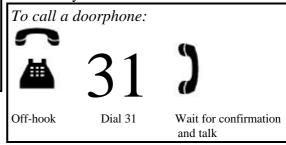

#### **Outward Dialling**

Allows you to make a call to an outside

#### Doorphone

Allows you to have a conversation with a visitor at your door

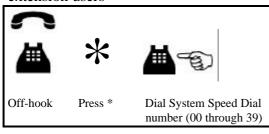

## System Speed Dialling

Allows you to make outside calls using previously programmed speed dial numbers.

This system supports forty speed dial numbers which are available to all extension users

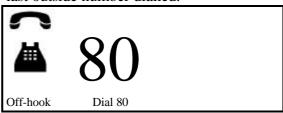

To unlock the door while talking to the doorphone:

## When a Line is Busy

#### Last Number Redial

Allows you to automatically re-dial the last outside number dialled.

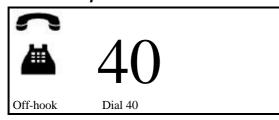

**Receiving Calls** 

#### Answer

#### Call Pickup

## While Having a Conversation

#### Call Hold

Allows you to place an intercom or outside call on hold.

To place a call on hold:

• Depending on the system programming you may need to dial 6 after pressing the recall button. For programming, see page 28 of the installation manual.

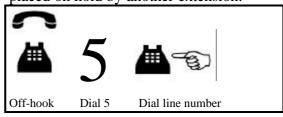

To retrieve a call on hold:

Press RECALL

#### Call Hold Retrieve

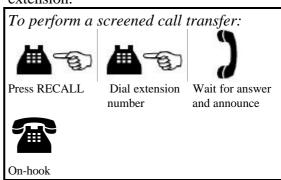

Allows you to receive a call that has been placed on hold by another extension.

 You can dial the extension number (21 through 26) which held the call or the line number.

#### Call Transfer

Allows you to perform a screened or Unscreened call transfer to another extension.

Press RECALL Dial extension number

On-hook

To retrieve the call when the transferred call is not answered within 30 seconds an the call has returned to you:

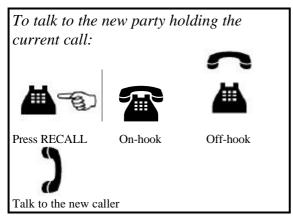

• For programming the hold recall time, see page 28 of the Installation Manual.

## While Having a Conversation (contd.)

#### Call Waiting

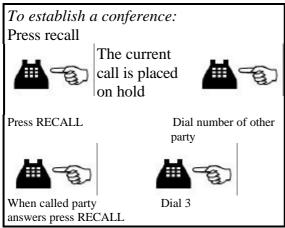

During a conversation, a call waiting tone signals that there is a call waiting. You can respond to the waiting call by disconnecting from the first call or by placing the first call on hold.

#### Conference

Allows you to add a third party to a twoparty conversation and make a three party conference. You can have the following combination of calls on the line: three extensions, two extensions and one line, or one extension and two lines.

To leave the conference:

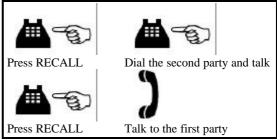

On-hook

• The other two parties can continue their conversation provided they are not both lines.

#### Call Splitting

Allows you to have two callers on a line and alternate between them. You can place the current call on hold and have a conversation with the other party.

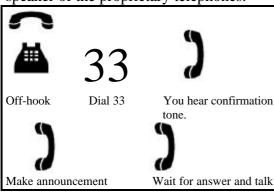

- Pressing RECALL alternates between the callers.
- When you go on-hook, the other two parties callers remain on-line.

## **Paging Features**

The Paging features allow you to make a voice announcement to several persons at the same time. Your message is announced over the built-in speaker of proprietary telephones. The paged person can answer your page from a nearby telephone.

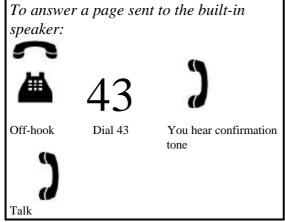

#### Paging All Extensions

Allows you to make a voice announcement to all extensions. Your message is announced over the built-in speaker of the proprietary telephones.

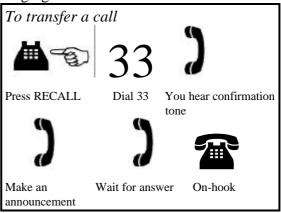

#### Paging Answer

Allows you to answer an announcement page at any extension within the system.

#### Paging and transfer

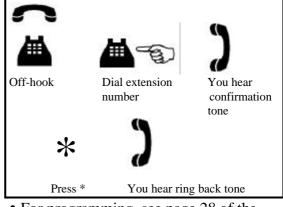

Allows you to transfer a call using the Paging to Extension feature.

#### **Other Features**

#### Intercom Alerting Mode

Allows you to switch voice calling to ring calling when making an intercom call. In Voice-Calling mode, you can talk to the other party immediately after the confirmation tone.

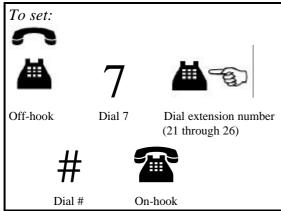

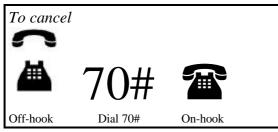

• For programming, see page 28 of the Installation Manual.

## Other Features (contd.)

#### Call forwarding

You can redirect all of your calls to another extension.

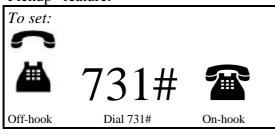

• You may dial "0" instead of "#"

#### Call Pickup Deny

Allows you to prevent another extension from picking up your calls with the "Call Pickup" feature.

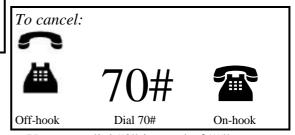

• You may dial "0" instead of "#"

#### Do Not Disturb (DND)

Allows you to prevent other parties from disturbing you. Your extension will not receive intercom or outside calls

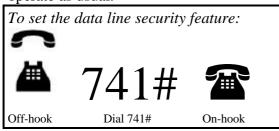

• You may dial "0" instead of "#".

### Other Features (contd.)

#### **Data Line Security**

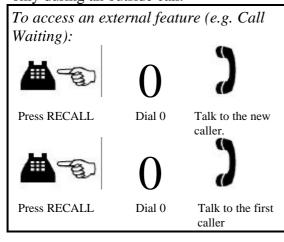

Your extension is protected against interruptions from "Call Waiting", "Hold Alarm", and "Executive Busy Override" features. Data communication devices, such as computers and facsimiles will operate as usual.

• You may dial "0" instead of "#". External Feature Access

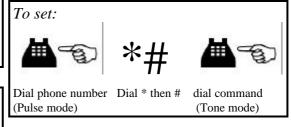

Allows you to access special features (e.g. Call Waiting) offered by a host PBX or Local Exchange. This feature is effective only during an outside call.

• If the Exchange Line Access Number Selection is assigned as "9", the external features access number becomes "9". For programming see page 26 of the installation manual.

#### Pulse to tone conversion

Allows you to change from Pulse to Tone dialling so that you can access special services such as Computer based banking services.

#### Station Feature Clear

Allows you to reset the following station features to the default setting:

- Call Forwarding
- Data Line Security
- Call Pickup Deny Do Not Disturb

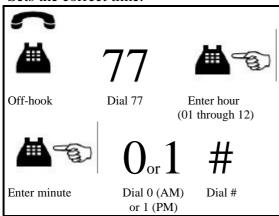

• You may dial "0" instead of "#"

### **Other Features (contd.)**

#### Time Setting (extension 21 only)

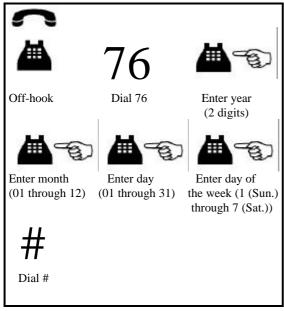

Sets the correct time.

• The clock starts immediately after pressing #.

#### Date Setting (extension 21 only)

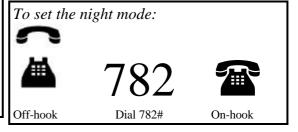

Sets the current date.

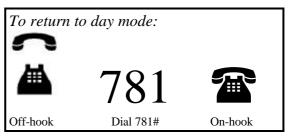

#### Flexible Night Service

(extension 21 only)

This system supports both DAY and NIGHT modes of operation. The system operation for originating and receiving calls can be different in night and day modes.
