FIRST TIME ENROLLMENT / TUTORIAL

Accessing the Voice Mail System From your Desk

Dial into the Voice Mail System by entering the Access Number provided by your System Administrator.

Internal Voice Mail Extension Number: _____

As a first time user, the system will prompt you through the setup of your personal Voice Mail Box. The Tutorial will guide you through entering the following personal Mailbox information:

- ▶ Entering your personal Mailbox Password
- ▶ Recording your Name
- ▶ Recording your personal Mailbox Greeting

Simply follow these instructions to personalize your mailbox. When finished, the system will automatically take you into your personal Mailbox. From here, you can access the various Mailbox features of the Courier system..

Accessing the Voice Mail System from an Outside Line

Dial the phone number assigned to the Courier System from an outside line. When the Courier answers, press the asterisk (*) key on your phone to access the Voice Mail Center. Following the commands, enter your mailbox number and password to access your personal Mailbox.

External Voice Mail Telephone Number: _____

Helpful Hints

Quick Entry into Mailbox

- ▶ When dialing into the Courier from an outside line, upon hearing the main greeting, you can dial # followed by the extension number to get you to the party's personal greeting without ringing the users telephone.
- ▶ You can always bypass a personal greeting by dialing # at any time during the greeting. After dialing pound, you will hear a short tone indicating that you can begin recording your message.

HOW TO USE THIS GUIDE

This Operator's Guide will provide the necessary steps and procedures for you to utilize the Courier Voice Mail system with the Panasonic Large Screen Display phone. Each step is clearly detailed and the corresponding display message is illustrated appropriately.

Soft key

The manual will refer to **Soft Keys** which are the buttons to the left and right of the large screen that correspond to the various features of the Courier application. Some features are noted as toggle on/off, and are activated and deactivated by pressing the corresponding Soft Key.

Telephone Keypad Activation

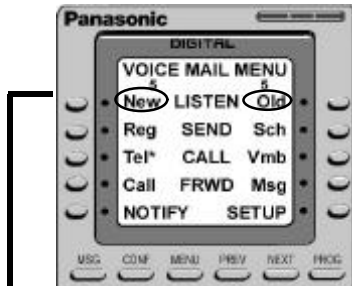

to move to VM Menu

In addition to using the Soft Keys to navigate through the Courier features, you may also use the telephone keypad. Numbers 1-9, and (*) correspond to the screen's display as noted above.

Below the screen heading (Example: Voice Mail Setup) you will find various prompts that guide you around or out of the current function screen. Most of the screens display **# to VM Menu** which always brings you back to the main Voice Mail Menu.

BOOKMARKING MESSAGES & CALLER ID CAPTURE

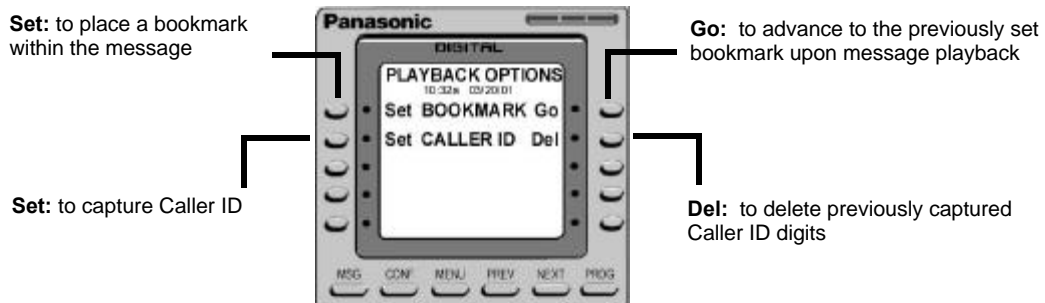

The Courier provides two unique features that are used while listening to messages, they are **Bookmarking Messages and Caller ID Capture**. Both features are functional from any telephone (Cell Phone, Internal Phone, etc.), and are utilized when listening to New or Old messages.

BOOKMARKING MESSAGES & CAPTURING CALLER ID FROM LARGE SCREEN TELEPHONE:

BOOKMARKING

- While listening to a message, you have the ability to place a bookmark in that message. This bookmark will allow you to advance to that location upon playback, the next time you listen to the message.
- ▶ While listening to a message, press **##** at the desired location to place a bookmark on that message

The following screen will appear:

CAPTURING CALLER ID

- While listening to a message, you have the ability to capture the Caller ID and store it in the system. From that point forward, calls will bypass the Auto Attendant and transfer directly to your extension.
- ▶ While listening to a message, press **##** to capture caller ID

BOOKMARKING & CAPTURING CALLER ID FROM ANY NON DISPLAY TELEPHONE:

- ▶ While listening to a message, press **##** at the desired location to place a bookmark and capture Caller ID for that message. Listen and follow voice prompts.

- 1** To **Set** a bookmark at the current position
- 2^{ABC}** To **Jump To** an existing bookmark
- 3^{DEF}** To **Assign** this caller ID to your mailbox
- 4^{GHI}** To **Remove** this caller ID from your mailbox
- #** To **Exit** feature and return to voicemail main menu

SEND

- ▶ **Receipt** of message confirmation.
- ▶ **Private** to prevent transfer of message.
- ▶ **Urgent** for expedited delivery.

CALL

DIRECTING CALLS TO TELEPHONE (TEL) OR VOICE MAILBOX (VMB)

When callers enter extension numbers from the auto attendant:

- Calls to Tel will ring extension first, then forward to voice mail, if no answer.
 - Calls to Vmb will go directly to the mailbox greeting, without ringing the phone.
 - Each option has up to 5 greetings to record
 - Select Tel or Vmb to record personal greetings
- ▶ **Tel:** directs incoming calls to telephone
 - ▶ **Vmb:** directs incoming calls directly to mailbox

SELECTING OR SETTING UP A GREETING

- ▶ **ACTIVATE** selects the desired greeting to play and marks it with an asterisk (*)
- ▶ **SETUP** records the greeting.

SETTING UP YOUR PERSONAL GREETING

- ▶ **LISTEN** to hear previously recorded greeting
- ▶ **RECORD** to record new greeting
- ▶ **First Part** records first part of message
- ▶ **Second Part** records second part of message (see Notes below)
- ▶ **Entire Greeting** records 1 greeting
- ▶ **PREV** to return to previous screen upon completion

Notes: Both Greeting options can be set up in 2 parts:

Static: Record message during first time set up. You will not have to change this message again.

Dynamic: Record the message as you need to.

Example: Send Calls to Vmb "Out Of Office"

First Part: "Hello, this is Emma Smith. I am currently out of the office ..."

Second Part: "I will return on Thursday at 2:00 pm. Please leave a message and I will return your call when I return. Thank you."

The System automatically combines these messages when a caller enters your Voice Mailbox greeting.

Note: If nothing has been recorded in the Second Part greeting, only the First Part greeting will play.

OFF-HOOK VOICE ANNOUNCE

OFF HOOK VOICE ANNOUNCE *

Off hook voice announce is a feature that can be applied to any extension on the system. First, it must be part of the Mailbox's Class of Service, and the Monitor Transfer feature must be activated in order for this function to operate properly.

- ➊ When a person is engaged in a conversation and a call comes through the Automated Attendant (AA) for that person, the Courier will attempt to transfer the call to the user.
- ➋ Upon indication that the extension is busy, the AA will pull the call back, and announce to the outside caller that the desired extension is currently on the telephone, but will announce the call to the party.
- ➌ The AA will then ask the outside caller to state their name.
- ➍ The AA will then announce, through the earpiece, to the desired party that there is a call waiting, and replay the recorded name of the outside caller.

Note: When this announcement is made, it is only heard by the desired extension, and does not interrupt that existing conversation. The other outside party does not hear a thing.

Upon hearing the announcement, the Large Screen Display changes and provides the following call handling options:

- ▶ **Accept:** New call is transferred to your extension.
- ▶ **Queue:** Puts incoming caller on hold and periodically plays a queue message asking the caller if they would like to continue holding or leave a message.
- ▶ **Message:** Incoming caller is directed to leave a message
- ▶ **Redirect:** Allows you to transfer Incoming call to another extension on the system.

REDIRECT CALLS

- ▶ **Change** favorite mailbox
This screen gives you the option to display 2 favorite (commonly used) mailboxes for quick access
- ▶ **Directory** provides a list of Voice Mailboxes
