Step 2

Press the [HOLD] key twice

The display reads 1. STATIONS

Press the [NEXT] soft-key until the display reads 6.

SYS APPLICAT.

Press the [SHOW] soft-key

The display reads STA HUNT GROUP

Press the [SHOW] soft-key

The display reads HUNT GROUP:

Enter [8]

Press the [SHOW] soft-key

The display reads GROUP TYPE: HUNT

NOTE: All terminations are by RJ-11 connection

Use any digital port to convert to two analog ports.

We use station 16 for the voice mail port in this example.

NOTE: 48 equals the total analog port capacity. Adding 16 to 48 equals 64, thus our second Voice Mail extension is 64

Station 16 coming from the 66 block plugs into the 2-Port Analog Adapter INPUT

The OUTPUT 1 from the 2-Port Analog Adapter plugs into the Jack 1 of VMS unit.

The OUTPUT 2 from the 2-Port Analog Adapter plugs into the Jack 2 of the VMS unit.

Press the [CHG] soft-key
