

## 3Com® 3105 Attendant Console Labels

1. To change the labels, click in any label box, type the new text, and then press **Tab** to move to the next field.
2. When you have finished editing the labels, click anywhere outside the labels to ensure that all of your edits take effect.
3. To print the labels, click the **Print** button. In the Print dialog box, clear the checkbox for Fit to Page, Shrink to Fit, or any similar choice so that the label size does not change when you print, and then click **OK**.

Note: Adobe® Acrobat® Reader 5.0 and 6.0 allow you to print this file but not to save it. To save this file, you must purchase the full Adobe Acrobat product. See [www.adobe.com](http://www.adobe.com)

To select extensions 51 through 100 on the attendant console, press the selection bar below the middle column of labels. The bar lights up to indicate that the higher range of extensions has been selected.
