## Setting up the Extension the First Time

When you begin setting up an extension, you are prompted to select what type of telephone you are using and where it will be located.

1. Press POWER.
2. Press **[1]**.
3. If you have a Bizfon 680 version 2.0, you hear an option specifically for the conference telephone. If you have an older Bizfon 680, press **[1]** again.
4. Press **[1]** to tell the system that the speakerphone is in a public place. This configures this extension to not use voice mail.

## Adjusting Ringer and Speaker Volume

To increase or decrease the speaker volume during a call, press the + or – side of VOLUME.

When you press POWER, the speaker volume is always reset to its middle setting to ensure optimum sound quality.

To increase or decrease the ringer volume, press + or – when not on a call.

## Internal and External Rings

When an internal caller is calling, you hear a single long ring.

When an outside caller is calling, you hear two short rings.
