VEHICLE DISMANTLING MANUAL

Corvette

GMP/01-Y-ELV

Cautions

Provide additional support when a vehicle is on a hoist in the following ways:

- Before removing parts, support the opposite end. This helps prevent the vehicle from slipping off.
- Before removing major components, chain the vehicle frame to the hoist pads at the same end as the removal. This helps avoid a tip-off.

Disconnect the battery prior to fluid removal and dismantling in order to reduce risk of fire and personal injury.

Always wear safety goggles when working with fuel in order to protect the eyes from splash.

Gasoline or gasoline vapors are highly flammable. A fire could occur if an ignition source is present. Never drain or store gasoline or diesel fuel in an open container, due to the possibility of fire or explosion. Have a dry chemical (Class B) fire extinguisher nearby.

Relieve the fuel system pressure before dismantling fuel system components in order to reduce the risk of fire and personal injury.

Drain the fuel from the complete system, including injector nozzle(s), the fuel pump, all fuel pipes, and the fuel tank. Draining the fuel will reduce the risk of fire and personal injury.

Provide proper ventilation when working with fuel in enclosed areas where fuel vapors can collect. The lack of adequate ventilation may result in personal injury.

This vehicle has a Supplemental Inflatable Restraint (SIR), "airbag" system. When performing disassembly on or near the SIR components or the SIR wiring, refer to cautions below. Failure to follow the cautions could cause airbag deployment or personal injury.

- Be careful when handling a SIR sensor. Do not strike or jolt a SIR sensor.
- Do not carry the inflator module by the wires or connector on the inflator module.
- Make sure the airbag opening points away from you.
- When storing an undeployed inflator module, make sure the airbag opening points away from the surface on which the inflator module rests.
- Provide free space for the airbag to expand in case of an accidental deployment.

Follow all applicable local laws and ordinances while performing procedures and processes related to these activities.

The specifications and designs described herein are believed to be correct as of the time this book was approved for printing.

2001 Chevrolet Corvette Activity Area 0 -- Pretreatment

Area: Pretreatment

Model: Corvette

				Total Volume or
Activity Ref Area #	Part Name	Material	Qty	Weight
0.1	Engine oil	Oil		5.20 L
0.1	Engine oil filter	Multiple	1	0.42 kg
0.2	Transmission oil	Oil		7.80 L
0.3	Refrigerant 134A	Refrigerant 134		0.31 kg
0.4	Fuel tank	PE	2	10.86 kg
0.4	Fuel tank isolator	PUR	1	0.34 kg
0.4	Fuel filler neck insert	PA-66	1	0.24 kg
0.4	Fuel tank tube	PA-6	1	0.20 kg
0.5	Coolant	Coolant		6.80 L
0.6	Steering oil	Oil		0.42 L
0.7	Brake fluid	Oil		0.50 L
0.8	Battery	Multiple, including lead	1	16.52 kg
0.9	Wheel weights	Lead	8	0.14 kg
0.10	Driver side air bag	Multiple	1	1.53 kg
0.10	Passenger air bag	Multiple	1	3.95 kg
0.11	Rear tire	EPDM	2	30.57 kg
0.11	Front tire	EPDM	2	27.12 kg
0.12	Instrument Cluster Light Tube	Mercury	1	20-40 mg

Information & Comments:

Total Volume or Weight = single part material multiplied by the quantity.

2001 CORVETTE ACTIVITY AREA 1 DOORS AND GLAZING

2001 Chevrolet Corvette Activity Area 1 -- Doors and Glazing

Area: Doors and Glazing

Model: Corvette

Activity Ref Area #	Part Name	Material	Qty	Total Material Weight (kg)
1.1	Windshield	Glass	1	16.37
1.2	Front door window, lh, rh	Glass	2	8.48
1.3	Front door, lh, rh	SMC	2	12.42
