

Important Information for Sports Suspension

General Precautions

This Sports Suspension is designed to give improved handling on well-maintained roads. Because of the reduced ground clearance, you should be more aware of road conditions.

- Use caution if you should drive your vehicle on rough or rutted roads. You could damage the suspension and underbody by bottoming out. Going too fast over parking lot “speed bumps” can also cause damage.
- Curbs and steep inclines could damage the front and rear bumpers. Low curbs that do not affect the average car may be high enough to hit the bumper on your Honda. The front or rear bumper may scrape when

trying to drive onto an incline, such as a steep driveway or trailer ramps.

Using your Sports Suspension may be installed only on the following models:

2002/2003 CIVIC
3-Door
Si

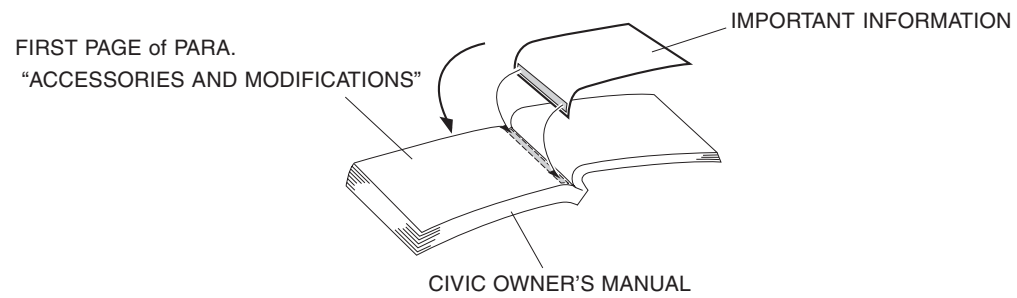

Warranty Coverage

All components of your Sports Suspension, are covered by the standard *Accessory Limited Warranty*. Refer to your Honda Warranty manual for details on coverage and exclusions.

Modification of components, or using the vehicle for racing or other competitive events can void your warranty coverage. Refer to the *General Warranty Provisions* in your warranty manual.

To the dealer:

Please attach the “Important Information” page furnished with the kit to the first page of the para. “Accessories and Modifications” of the CIVIC Owner’s Manual before giving the manual to your customer.

In this illustration, the first page of the Para. “Accessories and Modifications” is on the left side of the manual.
