Welcome

Your in-VEHICLE ENTERTAINMENT SYSTEM is designed to give you and your family years of enjoyment. You can play your favorite DVDs or plug-and-play a variety of standard video games. Please review these Operating Instructions to become familiar with the entertainment system’s features and operation. Pay particular attention to the safety precautions for use of a DVD player in a vehicle.

For additional information about your in-VEHICLE ENTERTAINMENT SYSTEM, please contact your dealer.
System Overview

Remote Functions

- Press to turn the DVD player ON/OFF
- Press to engage/disengage the vehicle’s audio speakers. Radio must be set to FM 87.9
- Press to play the DVD or to pause play temporarily
- Press to search backward during play
- Press to search forward during play
- Press to return to a previous scene or track
- Press to proceed to the next scene or track
- Press to stop DVD play
- Press to load or eject the disc

7” Flip-Down LCD Screen

To prolong system life and optimize radio performance, turn the DVD player power OFF when you are not using it.

Operating the system with the engine OFF will run down the vehicle’s battery.

Wireless Headphones

Headphones require two AAA batteries (not included). An infrared transmitter transmits the audio signal to the headphones.

Headphone Receivers

- Infrared sensors
- Battery cover
- Power Indicator LED

Auto Off
This battery power-saving feature automatically turns off the headphones if no infrared signal is received within 3-4 minutes.

Do not cup your hands over the earpiece when adjusting the volume. This may interfere with the signal to the headphones.
Remote Control

NOTE: When using the remote, aim it at the infrared transmitter above the video display screen. (See Item 5, p. 12)

NOTE: Functions may operate differently depending on the disc being played.

NOTE: Remote control requires two AA batteries (not included).

1. **POWER**
   Press to turn DVD player ON/OFF.

2. **(Up)**
   Press to navigate up through the selected menu.

3. **ENTER**
   Press to select currently activated menu option.

4. **EJECT/LOAD**
   Press to eject or load DVD.

5. **(Right)**
   Press to navigate right through the selected menu.

6. **(Down)**
   Press to navigate down through the selected menu.

7. **MENU**
   Press to display the DVD main menu. In menu mode, press to re-enter play mode at the point where playback last occurred.

8. **RETURN**
   Press to close menu and resume play.

9. **PLAY/PAUSE**
   In stop mode, press to play a DVD. In play mode, press to suspend play temporarily.

10. **FWD**
    In play mode, press to search forward. To resume to normal play mode, press PLAY or FWD.

11. **STOP**
    Press to stop play.

12. **NEXT**
    In play mode, press to forward to the next chapter or track.

13. **DISPLAY**
    If a disc is in play mode, press to display the menu bar.

14. **DVD/AUX**
    Press to switch between DVD player and auxiliary inputs.

15. **AUDIO/COMP**
    In DVD play mode, press to enable audio compression. Toggle on and off.

16. **ANGLE**
    In DVD play mode, press to select video camera angle (available on some DVD disks).

17. **PREV**
    Press PREV to go to the beginning of the current chapter or track (if pressed after 5 seconds from beginning of the chapter). If pressed within 5 seconds of beginning of the chapter, play will move to beginning of the previous chapter or track.

18. **REW**
    In play mode, press to search backward. To resume to normal play mode, press PLAY or REW.

19. **SPEAKER**
    Press to toggle the FM Modulator (ON/OFF) to allow audio to play through vehicle speakers.

20. **(Left)**
    Press to navigate left through the selected menu.

21. **LIGHT**
    Press to light up remote buttons for approximately 8 seconds.

**NOTE:** Backlighting is set at a nighttime intensity level. A darkened environment is necessary to verify this feature.
A) DVD player
B) Auxiliary input jacks (cover is non-removable)
C) 7” Color liquid crystal display (LCD) flip-down screen
D) Infrared wireless headphones
E) Remote control
F) Wireless headphone infrared transmitter/remote control receiver
**Play and Format**
The DVD player works only in the “play” mode. (The DVD player does not offer a record feature.) The system plays DVD video and audio CDs.
Certain DVD discs may require use of the remote control to navigate the disc menu to start play.

**Audio System**
The FM Modulator ON/OFF Speaker Switch () on the DVD allows rear seat passengers to listen to audio from the **in-VEHICLE ENTERTAINMENT SYSTEM** over the vehicle’s speakers.

*Note: The wireless headphones remain operational regardless of the speaker switch position.*
1. **POWER**
   - Press to turn the DVD player ON/OFF. The green power LED will illuminate when the power is on.

2. **STOP/EJECT**
   - Press to stop or eject a DVD.

3. **PLAY/PAUSE**
   - In stop mode, press to play a DVD. In play mode, press to suspend play temporarily.

4. **REV (Reverse)**
   - Press to search backward through the disc at four times the normal speed.

5. **FF (Fast Forward)**
   - Press to search forward through the disc at four times the normal speed.

6. **SPEAKER**
   - Press to toggle the audio to vehicle speakers through the FM Modulator (ON/OFF).

7. **VIDEO AUXILIARY INPUT JACK (YELLOW)**

8. **LEFT AUDIO AUXILIARY INPUT JACK (WHITE)**

9. **RIGHT AUDIO AUXILIARY INPUT JACK (RED)**

10. **DISC-IN Indicator:**
    - On when disc is present in player.

11. **POWER LED Indicator:**
    - On when DVD power is on.
Remote Control

**NOTE:** When using the remote, aim it at the infrared transmitter above the video display screen. (See Item 5, p. 12)

**NOTE:** Functions may operate differently depending on the disc being played.

**NOTE:** Remote control requires two AA batteries (not included).

1. **POWER**
   Press to turn DVD player ON/OFF.

2. **(Up)**
   Press to navigate up through the selected menu.

3. **ENTER**
   Press to select currently activated menu option.

4. **EJECT/LOAD**
   Press to eject or load DVD.

5. **(Right)**
   Press to navigate right through the selected menu.

6. **(Down)**
   Press to navigate down through the selected menu.

7. **MENU**
   Press to display the DVD main menu. In menu mode, press to re-enter play mode at the point where playback last occurred.

8. **RETURN**
   Press to close menu and resume play.

9. **PLAY/PAUSE**
   In stop mode, press to play a DVD. In play mode, press to suspend play temporarily.

10. **FWD**
    In play mode, press to search forward. To resume to normal play mode, press PLAY or FWD.

11. **STOP**
    Press to stop play.

12. **NEXT**
    In play mode, press to forward to the next chapter or track.

13. **DISPLAY**
    If a disc is in play mode, press to display the menu bar.

14. **DVD/AUX**
    Press to switch between DVD player and auxiliary inputs.

15. **AUDIO/COMP**
    In DVD play mode, press to enable audio compression. Toggle on and off.
16. **ANGLE**
   In DVD play mode, press to select video camera angle (available on some DVD disks).

17. **PREV**
   Press PREV to go to the beginning of the current chapter or track (if pressed after 5 seconds from beginning of the chapter). If pressed within 5 seconds of beginning of the chapter, play will move to beginning of the previous chapter or track.

18. **REW**
   In play mode, press to search backward. To resume to normal play mode, press PLAY orREW.

19. **SPEAKER**
   Press to toggle the FM Modulator (ON/OFF) to allow audio to play through vehicle speakers.

20. **(Left)**
   Press to navigate left through the selected menu.

21. **LIGHT**
   Press to light up remote buttons for approximately 8 seconds.
   **NOTE:** Backlighting is set at a nighttime intensity level. A darkened environment is necessary to verify this feature.
Menu-Bar

Your Honda *in-VEHICLE ENTERTAINMENT SYSTEM* provides three menu-bar options. Press the DISPLAY key on the remote control once to display menu-bar 1, twice to display menu-bar 2, three times to display menu-bar 3.

**NOTE:** Depending on the disc type, not all menu items may be available.

---

### Menu-bar 1

#### Personal Preferences

- **Picture** – menu items that can be chosen from are:
  - **TV Shape** – Preset to 16:9 for high performance 7” LCD.
  - **Black level shift** – Select ON for adapting the color dynamics to obtain richer contrasts.
  - **Video shift** – This setting can personalize the position of the picture on your TV by scrolling it to the left or right.
  - **Color settings** – Allows user to select from four preset color settings.
  - **Personal color** – Allows user to customize color.
  - **TV system** – Preset to NTSC.

- **Sound** – menu items available are:
  - **Digital output** – Factory setting is OFF.
  - **Analog output** – To select preference for Stereo, Dolby, Surround, or 3D Sound.
  - **AC3-DYN compression** – Raises average level of DVD audio (AC3 only).
  - **Karaoke Vocal** – Factory setting is off. Enables playback of karaoke disc.

#### Language

- **Language** – Allows user to select preferred default language for Audio, Subtitle, and Menu.

#### Features

- **Features** – menu items available are:
  - **Access control** – Child Lock and Parental Control are contained in this menu item.
  - **Status window** – When set to ON displays the current status of the player.
  - **PBC (Playback Control)** – Can be set to ON or OFF.
  - **Help text** – When set to ON, this will describe the icons selected.

#### Subtitle language

- **Subtitle language** – Allows user to change subtitle selection without affecting preference settings.

#### Audio language

- **Audio language** – Allows user to change audio language during playback without affecting preference settings.

#### Color

- **Color** – Allows user to select from four preset color settings or one personal setting.

#### Sound

- **Sound** – Allows user to select Stereo, Dolby, Surround, or 3D Sound.
Remote Battery Replacement

- Use a pen tip to remove the battery cover.

- Battery replacement is usually required if the remote only functions at extremely close distances to the DVD player or not at all.

- When replacing the batteries, use two AA batteries and install with correct orientation as indicated on the remote.

Media Control Panel

AUX input jacks

YELLOW: Video
WHITE: Left audio
RED: Right audio
Operating Instructions

Flip-Down Screen

1. Seven-inch (diagonal) color liquid crystal display (LCD) screen.
2. Aspect ratio switch.
   Push to convert the screen between normal view and wide screen view.
3. Dimmer control.
   Push (+/-) to increase or decrease screen brightness.
4. Display latch.
5. Wireless headphone and remote control infrared transmitter and receiver.
   (Aim remote control to this area for proper functionality.)

Operating Tips

Operating the system with the engine OFF will run down the vehicle’s battery. When the ignition key is turned OFF, the in-VEHICLE ENTERTAINMENT SYSTEM should also be turned OFF. When the ignition is turned ON, the system is off until the DVD POWER button is pushed to turn it on. The system defaults to AUX (game) mode whenever a DVD disc is not loaded and the DVD power is turned on.

To prolong system life and optimize radio performance, turn the DVD power OFF when you are not using it. Do not leave DVDs in the player overnight or for extended periods.
To listen through the vehicle’s speaker system, press the FM Modulator ON/OFF Speaker Switch (🔊) on the DVD and set the radio to FM 87.9. When using the remote control, aim it at the infrared transmitter above the video display screen.

Features

1. Press DISPLAY on the remote control.
2. Select (万户) in menu-bar 1. The Personal Preferences menu appears.
3. Use the ▲ ▼ keys to toggle through the menus, submenus and submenu options.
4. Press ENTER to select.
5. Press DISPLAY 3 times to close menu and resume play.

Subtitles

1. Press DISPLAY on the remote control.
2. Select (户) SUBTITLE in menu-bar 1.
3. Use the ▲ ▼ keys to toggle through the menu options of languages.
4. Press ENTER to close menu and resume play.
Operating Instructions

Audio
1. Press DISPLAY on the remote control.
2. Select ( ) AUDIO in menu bar 1.
3. Use the ▲▼ keys to toggle through the menu options.
4. Press ENTER to close menu and resume play.

Operation

Playing a DVD
1. Turn ignition key ON.
2. Press the POWER button on the DVD player or remote control.
3. Insert DVD into the DVD player label side up. If no label, refer to disc package to ensure proper orientation of disc.
4. The disc will automatically begin to play. If video is not shown on the screen, press the DVD/AUX button on the remote control to switch from AUX to DVD player mode.
5. Set vehicle radio to FM 87.9 or designated preset frequency.
6. Press the FM Modulator Speaker ON/OFF switch ( ) on the DVD player or remote control to listen to audio over the vehicle speakers. Audio is also routed through the headphones, regardless of the Speaker ON/OFF switch position.
7. Press the STOP/EJECT button to stop play. Press it again to remove the DVD.

NOTE: If “Child Lock” is set to ON and the disc inserted is not authorized, the 4-digit code must be entered and/or the disc must be
Operating Instructions

authorized (see “Access Control”).

NOTE: Unless otherwise stated, all operations described are based on using the remote control.

Removing Discs
1. Press STOP/EJECT on the front of the player to stop play.
2. Once stopped, press STOP/EJECT again or press EJECT/LOAD on the remote to eject the DVD.

Moving to Another Title/Chapter
When the disc has more than one title or chapter, you can move to another title/chapter as follows:
1. Press DISPLAY, then select title or chapter in menu-bar 3 using the 4 or 6 keys.
2. Press 4 or 6 to select desired title or chapter number.

Slow Motion
1. Press DISPLAY on the remote control.
2. Select (SLOW MOTION) in menu-bar 2.
3. Use the 6 keys to enter the SLOW MOTION menu. Playback will pause.
4. Use the cursor keys 4 4 to select required speed: -1, -1/2, -1/4, or -1/8 (backward), or 1/8, 1/4, 1/2 or 1 (forward).
5. Select 1 to play the disc at normal speed again.
6. If is pressed, the speed will be set to zero (PAUSE).
7. To exit slow motion mode, press PLAY and 5.

Still Picture and Frame-by-Frame Playback
1. Press DISPLAY on the remote control.
2. Select (STEP) in menu-bar 2.
3. Use the 6 key to enter the step-by-step menu. Playback will pause.
4. Use the cursor keys 4 4 to select the previous or next picture frame.
5. To exit step-by-step playback, press PLAY or 5.

Search
1. Press DISPLAY on the remote control.
2. Select (FAST MOTION) in menu-bar 2.
3. Use the 6 keys to enter the FAST MOTION menu.
4. Use the cursor keys 4 4 to select the required speed: -32, -8, or -4 (backward) or 4, 8, 32 (forward).
5. To exit FAST MOTION mode, press PLAY or 5.
Operating Instructions

Pause

1. Press II during playback.
2. To return to playback, press PLAY.

Moving to Another Track

1. Press PREV to go to the beginning of the current chapter or track (if pressed after 5 seconds from beginning of the chapter). If pressed within 5 seconds of beginning of the chapter, play will move to beginning of the previous chapter or track.

Zoom

The zoom function allows you to enlarge the video image and to pan through the enlarged image.

1. Press DISPLAY on the remote control.
2. Select ZOOM in menu-bar 2.
3. Press ▲/▼ to activate the ZOOM function and select the required zoom factor: 1.33 or 2 or 4. Playback will pause.
   - The selected zoom factor appears below the ZOOM icon in menu-bar 2 and “Press OK to pan” appears below the menu-bar.
   - The picture will change accordingly.
4. Press ENTER to confirm the selection. The panning icons appear on the screen.
5. Use the ◄►▲▼ keys to pan across the screen.
6. When ENTER is pressed only the zoomed picture will be shown on the screen.
7. To exit ZOOM mode, press PLAY to resume playback.

Access Control (Child Lock)

1. When disc playback is stopped, select ACCESS CONTROL in the features menu using the ▲/▼ keys.
2. Use the ◄► keys to select the number’s position and ▲▼ keys to select number.
3. Press ENTER after selecting each number.
4. Enter the code a second time.
5. Move to “CHILD LOCK” using the ▲/▼ keys.
6. Move to LOCK/UNLOCK using the ◄ key.
7. Select LOCK using the ▲/▼ keys.
8. Press OK or ◄ to confirm, then press ◄ again to exit the menu. Now unauthorized discs will not be played unless the 4-digit code is entered.
9. Select UNLOCK to deactivate the CHILD LOCK.

**NOTE**: Confirmation of the 4-digit code is necessary when:
- The code is entered for the very first time.
- The code is changed.
- The code is cancelled.

**FTS (Favorite Track Selection)**
The FTS function allows you to store your favorite titles and chapters for a particular disc in the player memory. FTS program can contain 20 items (titles, chapters etc.).
A programmed FTS will be placed on top of the list when playback is activated.
The program can be selected and played at any time.

**Storing a FTS Program**
1. In STOP mode, press menu then select \( \text{FTS} \) in menu-bar 3.
2. Press \( \downarrow \) to open the menu. The \( \text{FTS} \) menu appears.
3. Press \( \triangleright \) or \( \triangleleft \) to select ON or OFF. If no program is selected, FTS is OFF. When titles or chapters are selected, FTS is automatically turned ON and user can select ON/OFF.

**Storing Titles/Tracks**
1. Press \( \downarrow \) to select \( \text{TITLES} \).
2. Use \( \triangleright \) or \( \triangleleft \) to select the required title.
3. Press ENTER if you wish to store the entire title. The title number will be added to the list of selections.

**Storing Chapters/Indexes**
1. Press \( \downarrow \) on the selected title number. The title number will be marked and the highlight moves to the first available chapter number for this title.
2. Use \( \triangleright \) or \( \triangleleft \) to select the required chapter number.
3. Press ENTER to confirm the selection. The title/chapter selection will be added to the list of selections.
4. Press RETURN to exit the FTS menu.

**Erasing a FTS-Video Program**
1. In STOP mode, press DISPLAY then select \( \text{PROGRAM} \) in the menu bar.
2. Use \( \triangleright \) or \( \triangleleft \) to select the required selection number.
3. Press ENTER to erase the selection.
Operating Instructions

5. Press RETURN to exit.

**Erasing All Selections:**

1. In STOP mode, press MENU then select [✓] in the menu bar.
2. Use [▼] to select **CLEAR ALL**
3. Press ENTER. All selections will now be erased.
4. Press RETURN to exit. FTS will turn off.
To ensure the best performance from your wireless headphones, please read this information carefully.

Features
- Automatic Level Control prevents input signal overloading
- Uses high-frequency infrared light to assure a clean signal for clear reception
- Adjustable headphone band for proper fit.
- Auto off battery power saving feature automatically turns off headphones if no infrared signal is received within 3-4 minutes.

Explanation of Controls
1. Infrared Transmitter
   Transmits audio signal to the headphones.

2. Infrared Sensors
   Receive audio signal from the transmitter.

3. Battery Cover
   To replace the batteries, use a coin to turn the screw and remove the cover.

4. Volume Control
   Use to adjust headphone volume.

5. Power Button
   Turns headphone power ON/OFF.

6. Power Indicator LED
   Is on when headphones are ON.

Auto Off
The battery power-saving feature automatically turns off the headphones if no infrared signal is received within 3-4 minutes.

NOTE: Do not cup your hands over the earpiece when adjusting the volume. This may interfere with the signal to the headphones.
Wireless Headphones

Battery Replacement
• Use a quarter or similar item to remove the battery cover.
• Place two alkaline AAA batteries into the battery compartment of the headphones, making sure the batteries are properly installed.
• Install the battery cover, use a coin to tighten it.

Operation
Please read carefully to prevent damage to the headphones or your ears.
• Be sure the batteries are properly installed in the headphones.
• Turn the headphone volume nearly OFF before turning on the power. Turn on the headphone power switch, then adjust the headphone volume to a comfortable level. Make sure you turn OFF the power switch before storing the headphones.

Adjusting Headphones
The headphones may be adjusted to fit more comfortably. While holding the top of the headphones, pull down on each earpiece to make the straps longer, or push up on each earpiece to make the straps shorter.
Connecting Auxiliary Video Equipment

The in-VEHICLE ENTERTAINMENT SYSTEM accepts video and audio RCA type connectors for all standard video games and video equipment (such as camcorders) in the auxiliary input jacks of the media control panel.

Playing Video Games

- Connect the video line to the YELLOW jack.
- Connect the left and right audio wires to the WHITE and RED jacks respectively.
- Turn the video game power ON.
- Press the DVD player power. The LCD screen will be turned ON.
- View the game on the LCD flip-down screen. Adjust screen brightness with the buttons.

Using Auxiliary Video Equipment

- Connect the video line to the YELLOW jack.
- Connect the left and right audio wires to the WHITE and RED jacks respectively.
- Follow the operating instructions for the video equipment.

NOTE: Auxiliary video equipment can be powered by the power outlet. It may require a 12-volt DC to 120-volt AC power inverter.

NOTE: If a disc is not inserted, system will default to auxiliary mode.

If a disc is inserted, press DVD AUX to change modes.
Environmental Extremes

DVD players subjected to harsh environmental conditions may be damaged or operate at less than maximum performance. To prevent damage or degraded performance of the DVD player, remote control or DVD, try to avoid leaving the vehicle:

- in extremely hot or cold temperatures
- in direct sunlight
- in high humidity
- in a dusty environment
- in locations where strong magnetic fields are generated
- on a surface that is unstable or subject to vibrations
- Your cellular phone may cause noise in the infrared headphones

Temperature Extremes

If the vehicle is parked in the sun or in an extremely cold place for a long time, wait until the interior temperature is normal before operating the system.

Humidity and Moisture Condensation

Moisture in the air will condense on the DVD player under extremely humid conditions or when you move from a cold place to a warm place. If you encounter moisture condensation, do not insert a DVD into the player. If a DVD is in the player, remove it. Turn power ON to the DVD player to dry the moisture before inserting a DVD. In some cases, this may take an hour or more.
**Foreign Substances**
Exercise care to prevent dirt and foreign objects from entering the DVD player. Be especially careful not to spill liquids of any kind onto the DVD player. If you accidentally spill liquid onto the system, immediately turn the system OFF and consult a qualified service technician.

**Cleaning the Display Screen**
Clean the display screen with 70% isopropyl alcohol (rubbing alcohol) or an ammonia-based glass cleaner. Apply a small amount of cleaner to a soft cloth and rub gently until dirt or fingerprints are removed. To prevent damage to the electronics, do not spray the screen directly. Do not apply excessive pressure while cleaning.

**Cleaning the Console**
Clean the outside of the console with a soft cloth dampened with water. Take care to not get the controls or DVD player wet.
## Troubleshooting

Use the following troubleshooting chart to remedy symptoms you may experience. If the problem is not readily corrected, consult your Honda dealer.

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible Cause</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No system power. Ignition ON, power indicator light is OFF.</td>
<td>Power line disconnected, shorted or damaged. Blown fuse.</td>
<td>Check vehicle’s 15 amp fuse. Contact your dealer.</td>
</tr>
<tr>
<td>DVD does not operate.</td>
<td>Machine or disc has dew or is damp inside.</td>
<td>Wait until DVD player or disc becomes dry. May take several hours.</td>
</tr>
<tr>
<td></td>
<td>Temperature too high.</td>
<td>Wait until vehicle cabin temperature cools down.</td>
</tr>
<tr>
<td></td>
<td>Voltage exceeded 18 v. Overvoltage protection circuit is operating.</td>
<td>Power off the DVD player and contact dealer to service.</td>
</tr>
<tr>
<td>Function indicators don’t disappear from screen.</td>
<td>Incorrect display mode.</td>
<td>Press the DISPLAY button on the remote control.</td>
</tr>
<tr>
<td>No audio from DVD player or AUX source on vehicle speakers.</td>
<td>Not in speaker mode.</td>
<td>Press FM modulator ON/OFF speaker switch.</td>
</tr>
<tr>
<td></td>
<td>Radio not tuned to proper frequency.</td>
<td>Tune radio to 87.9 MHz, or designated preset frequency.</td>
</tr>
<tr>
<td>Symptom</td>
<td>Possible Cause</td>
<td>Solution</td>

Precautions

This display is intended for rear seat passenger viewing only – out of the driver’s view. Installation within the driver’s view is illegal in most states, provinces and countries and may lead to driver distraction.

Do not insert foreign objects into the DVD player.

**WARNING!** The front glass on the liquid crystal display may break when hit with a hard surface. If the glass breaks, do not touch the liquid crystalline material. In case of contact with skin, wash immediately with soap and water.

**CAUTION:** Do not expose the liquid crystal display to direct sunlight or intense ultraviolet rays for extensive time periods. Ultraviolet rays deteriorate the liquid crystal.

Please be sure to review the owner’s manuals, consumer information and precaution booklets for all video games and video equipment that you use as auxiliary inputs for your in-VEHICLE ENTERTAINMENT SYSTEM.

Do not operate video games and video equipment if the power cords or cables are broken, split or damaged.

Avoid touching auxiliary input jacks with your fingers. Do not blow on them or allow them to get wet or dirty.

Do not clean any part of the unit with benzene, paint thinner or any other solvent.
**Safety Information**

**Electrical Cautions and Warnings**

**CAUTION**

Risk of Electrical Shock
Do not open system.

**CAUTION:** To reduce the risk of electrical shock, do not remove system cover (or back). No user-serviceable parts are inside. Refer servicing to qualified service personnel.

A lightning flash with arrowhead symbol within a triangle is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure. The voltage may be of sufficient magnitude to constitute a risk of electric shock.

An exclamation point within triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

**WARNING!** To prevent fire or shock hazard, do not expose this unit to rain or moisture.

**CAUTION:** This DVD player should be used with 12V DC only. To prevent electrical shocks and fire hazards, DO NOT use any other power source.
Federal Communications Commission (FCC) Compliance

Change or modifications not approved by Honda could void user’s authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
