Voice Mail and Automated Attendant  
Quick Reference Guide

**Main Menu**

**L Listen to Messages 5**

**Voice Mail** lets outside callers leave recorded messages for you and lets you leave recorded messages for co-workers. Messages get stored in each person's mailbox. To listen to your messages or use other Voice Mail features, you call your mailbox and access the Main Menu.

Enter another mailbox number. Or, press N to enter another mailbox name.	
<b>*R</b>	Request a return receipt. As soon as the recipient listens to your msg, NVM-Series lets you know by placing a "receipt" in your mailbox. The receipt consists of two parts: the voice prompt "The following return receipt arrived on (date/time) from (name or number)," followed by the msg that was listened to. After you press *R, you can go to the top of this menu.†
<b>*U</b>	Tag a message as "urgent" so the message gets priority handling in the recipient's mailbox. Upon logging on to their mailbox, the recipient hears "This is an urgent message" followed by the message.†

<b>#</b>	Send msg and return to Main Menu.

**When done recording you can:**

Enter mailbox numbers to receive msg, up to 10.	
<b>*N</b>	Specify recipients by name. After you press *N, follow the voice prompts.†
<b>**</b>	Erase msg and return to Main Menu.

Lets you know if a msg that you sent has been listened to. If not listened to, you can delete it. NVM-Series also lets you listen to the msg before you delete it. **26**

**G Mailbox Greetings 4**  
You can have 3 different greetings. NVM-Series plays the greeting you select as "active." If Auto Attendant DND is ON, the Auto Attendant does not ring your phone. Callers immediately hear your greeting. If OFF, the Auto Attendant will try your extension. Callers hear your greeting only if you do not answer or are busy. (Note that NVM-2 has only one greeting.)

**RN Record Mailbox Name 76**  
NVM-Series will play your mailbox name in the voice prompts instead of your mailbox number.

**FD Future Delivery Message 33**  
NVM-Series sends the message on the date and time you specify.

**PG PaGing Message†**  
When a caller tries to reach you, NVM-Series uses the message to page you. If the message is ON, NVM-Series pages immediately. If OFF, NVM-Series pages only if you do not answer. See also the User's Guide. **74**
