No part of this product or related documentation may be reproduced in any form by any means without prior written authorization of the NexPath Corporation.

NTS SERVER HARDWARE LIMITED WARRANTY

THIS IS TO CERTIFY that the NexPath NTS Server hardware ("NTS Server") is hereby warranted to be free of all defects in material and workmanship for one (1) year from the date of initial purchase from NexPath. This Warranty does not apply to a defect caused by negligence, misuse, accidents, acts of God, or to any use not in accordance with the instructions and specifications published by NexPath Corporation ("NexPath"). Use of the NTS Server in emergency or time-critical or medical applications is not appropriate.

During the period of this Warranty, NexPath will repair or replace at our service center located in Santa Clara, California, any part proving defective in material or workmanship. All expenses related to replacing or repairing a defective part under this Warranty will be assumed by NexPath except for the cost of transporting the product to NexPath's service center, which shall be the responsibility of the buyer.

The buyer must notify NexPath of any defect, malfunction or nonconformity promptly upon discovery. Within 30 days after receiving the NTS Server from the buyer, NexPath will repair or replace the defective part, at its own option, provided that NexPath has found the NTS Server to be defective. CUSTOMER'S SOLE AND EXCLUSIVE REMEDY HEREUNDER SHALL BE LIMITED TO THE REPAIR OR REPLACEMENT SPECIFIED HEREIN.

The foregoing warranties are contingent upon (1) the proper use of the hardware in accordance with the instructions and specifications published by NexPath, (2) the purchase of the NTS Server from a dealer or distributor authorized by NexPath to sell the NTS Server, and (3) return of a properly completed Warranty Registration Card within 30 days of purchase; and may not apply to any NTS Server that has been repaired or modified by persons other than NexPath. The NTS Server Limited Warranty is non-transferable.

BUYER AGREES THAT ITS EXCLUSIVE REMEDIES, AND NEXPATH'S ENTIRE LIABILITY WITH RESPECT TO THE NTS SERVER, SHALL BE AS SET FORTH HEREIN. BUYER FURTHER AGREES THAT NEXPATH SHALL NOT BE LIABLE TO BUYER OR ANY THIRD PARTY FOR ANY DAMAGES, INCLUDING ANY LOST PROFITS, LOST SAVINGS, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF BUYER'S USE OR INABILITY TO USE THE NTS SERVER OR THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, EVEN IF THE BUYER HAS BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES.

THE EXPRESS WARRANTIES SET FORTH IN THIS AGREEMENT ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

NexPath Corporation

2988 Scott Boulevard
Santa Clara, CA 95054

This Warranty is effective only if the enclosed registration card is returned to NexPath within thirty (30) days of the date of initial purchase. NexPath neither assumes nor authorizes any representative or other person to assume for NexPath any other liability in connection with the sale or shipment of NexPath products.

Table of Contents

APPENDIX A

NTS/8-specific information 5

Lines connected when AC power is removed from the NTS/8 system 5

Wiring worksheet for an NTS/8 system running the default configuration 5

Pin-out of the RJ11 jacks on the back panel of an NTS/8 system 7

Pin-out of the punch down block (66-block) and RJ11-to-50-pin cable PN3102 when used with card 1 of an NTS/8 system 8

Break-out of the mini patch panel when used with an NTS/8 system and cable PN3102 10

Default system configuration for an NTS/8 system 11

APPENDIX B

NTS/16-specific information 17

Lines connected when AC power is removed from the NTS/16 system 17

Wiring worksheet for an NTS/16 system running the default configuration 18

Pin-out of the RJ11 jacks on the back panel of an NTS/16 system 19

Pin-out of punch down block (66-block) with RJ11-to-50-pin cable PN3102 connected to cards 1 and 2 of an NTS/16 system 20

Break-out of the mini patch panel when used with an NTS/16 system and cable PN3102 22

Default system configuration for an NTS/16 system 23

APPENDIX C *NTS/24-specific information* 29

Lines connected when AC power is removed from the NTS/24 system 29

Wiring worksheet for an NTS/24 system running the default configuration 30

Pin-out of the RJ11 jacks on the back panel of an NTS/24 system 31

Pin-out of the punch down block (66-block) with RJ11-to-50-pin cable PN3102 when used with cards 1, 2, and 3 of an NTS/24 system 32

Break-out of the mini patch panel when used with an NTS/24 system and cable PN3102 34

Default system configuration for an NTS/24 system 35

APPENDIX D *NTS/32-specific information* 41

Lines connected when AC power is removed from the NTS/32 system 41

Wiring worksheet for an NTS/32 system running the default configuration 42

Pin-out of the RJ11 jacks on the back panel of an NTS/32 system 43

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 1, 2, and 3 of an NTS/32 system 44

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with card 4 of an NTS/32 system 46

Break-out of the first mini patch panel when used with an NTS/32 system and cable PN3102 (cards 1-3) 48

Break-out of the second mini patch panel when used with an NTS/32 system and second cable PN3102 (card 4) 49

Default system configuration for an NTS/32 system 50

APPENDIX E *NTS/40-specific information* 57

Lines connected when AC power is removed from the NTS/40 system 57

Wiring worksheet for an NTS/40 system running the default configuration 58

Pin-out of the RJ11 jacks on the back of an NTS/40 system 60

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 1, 2, and 3 of an NTS/40 system **61**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 4 and 5 of an NTS/40 system **63**

Break-out of the first mini patch panel when used with an NTS/40 system and cable PN3102 (cards 1-3) **65**

Break-out of the second mini patch panel when used with an NTS/40 system and cable PN3102 (cards 4-5) **66**

Default system configuration for an NTS/40 system **67**

APPENDIX F

NTS/48-specific information **73**

Lines connected when AC power is removed from the NTS/48 system **73**

Wiring worksheet for an NTS/48 system running the default configuration **74**

Pin-out of the RJ11 jacks on the back panel of an NTS/48 system **76**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 1, 2, and 3 of an NTS/48 system **77**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 4, 5, and 6 of an NTS/48 system **79**

Break-out of the first mini patch panel when used with an NTS/48 system and cable PN3102 (cards 1-3) **81**

Break-out of the second mini patch panel when used with an NTS/48 system and cable PN3102 (cards 4-6) **82**

Default system configuration for an NTS/48 system **83**

APPENDIX G

NTS/RX-specific information **89**

NTS/RX Rack Mounted Systems **89**

Lines connected when AC power is removed from the NTS/RX system **90**

Wiring worksheet for an NTS/RX system with the default configuration: **92**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 1, 2, and 3 of an NTS/RX system **95**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 4, 5, and 6 of an NTS/RX system **97**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 7, 8, and 9 of an NTS/RX system **99**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 10, 11, and 12 of an NTS/RX system **101**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 13, 14, and 15 of an NTS/RX system **103**

Pin-out of the punch down block (66-block) of RJ11-to-50-pin cable PN3102 when used with cards 16 and 17 of an NTS/RX system **105**

Default system configuration for an NTS/RX system **107**

Pin-out of the RJ11 jacks on the back of NTS/RX (rack mounted) system **115**

Lines connected when AC power is removed from the NTS/8 system

TABLE F-16: Default configuration for both the day and night auto-attendants

NTS/RX Rack Mounted Systems

The NTS/RX rack mounted systems can have up to 17 cards installed, for a maximum capacity of 51 outside lines x 85 inside lines.

The tables on following pages illustrated a fully loaded NTS/RX system. Your system will differ, depending on how many cards are actually installed. The number of users, outside extensions, inside extensions, and voice mail box extensions will vary accordingly.
