#### CHILD SAFETY REAR DOOR LOCK

Child safety locks help prevent the rear doors from being opened accidentally, especially when small children are in the vehicle. The child safety lock levers are located on the edge of the rear doors. When the lever is in the LOCK position, the door can be opened only from the outside.

#### **HEADLIGHT AND TURN SIGNAL CONTROL**

#### **HEADLIGHT SWITCH**

- Turn the headlight switch to the <code>IDGE</code> position to turn on the front parking, tail, license plate and instrument panel lights.
- Turn the headlight switch to the **(D)** position to turn on the headlights. All other lights remain on.

#### **HIGH BEAM**

- Push the headlight switch forward to select the high beam function. The blue 
  indicator light illuminates. Pull the headlight switch back to the original position to select the low beam. The blue 
  indicator light goes off.
- Pull and release the headlight switch to flash the headlight high beams on and off.

#### **TURN SIGNAL SWITCH**

- Move the headlight control switch up or down to signal the turning direction. When the turn is completed, the turn signals cancel automatically.
- To signal a lane change, move the headlight control switch up or down to the point where the indicator light begins to flash, but the headlight control switch does not latch.

### FOG LIGHT OPERATION (if so equipped)

**NOTE**: The headlights must be on and the low beams selected for the fog lights to operate.

- Turn the switch to the ‡O position to turn on the fog lights. The ‡O indicator light illuminates.
- Turn the switch to the OFF position to turn off the fog lights. The ‡D indicator light goes off.

## **TWIN TRIP ODOMETER**

- The twin trip odometer records the distance of individual trips.
- Press the button o1 to change the display as follows: Trip A → Trip B → Trip A.
- Press and hold the button for more than 1 second to reset the trip odometer to zero.

#### WINDSHIELD WIPER/WASHER SWITCH

- The ignition switch must be in the ON position to activate the windshield wipers.
- Push the lever down to operate the windshield wipers.
- Switch operation includes:

- Low speed Wipers operate at a continuous low speed.
- ни High speed Wipers operate at a continuous high speed.
- Mist Lift the lever up for one sweep operation of the wiper.
- Wash Pull the lever toward you. Wipers automatically wipe several times.
- Rear wiper and washer switch (Hatchback only) The rear window wiper and washer operates when the ignition switch is in the ON position. Turn the switch forward to operate rear window wipers. Switch operation includes:
  - Intermittent (not adjustable) Wipers operate intermittently.
  - on On Wipers operate at a continuous speed.
  - Wash Push the lever away from you. Wipers automatically wipe several times.

## CRUISE CONTROL (if so equipped)

- To activate the cruise control, push the ON/OFF switch. The indicator light in the instrument panel will illuminate.
- To set cruising speed, accelerate the vehicle to the desired speed, push the COAST/SET switch and release it. The SET indicator light in the instrument panel will illuminate.

- To reset at a faster cruising speed, push and hold the ACCEL/RES switch. When the vehicle reaches the speed you desire, release the switch.
- To reset at a slower cruising speed, push and hold the **COAST/SET** switch. Release the switch when the vehicle slows to the desired speed.
- To resume a preset speed, push and release the ACCEL/RES switch. The vehicle returns to the last set cruising speed when the vehicle speed is over 24 MPH (38 km/h).
- To cancel cruise control, push the **CANCEL** switch or tap the brake pedal. The SET indicator light in the instrument panel will go out.
- To turn off cruise control, push the **ON/OFF** switch. Both the CRUISE indicator light and the SET indicator light in the instrument panel will go out.

#### **SEAT BELT WARNING LIGHT AND CHIME**

■ The light and chime remind you to fasten your seat belts. The light illuminates whenever the ignition key is turned to the ON or START position and remains illuminated until the driver's seat belt is fastened. At the same time, the chime sounds for approximately 6 seconds unless the driver's seat belt is securely fastened.

■ The seat belt warning light may also illuminate if the front passenger's seat belt is not fastened when the front passenger's seat is occupied. For 7 seconds after the ignition switch is in the ON position, the system does not activate the warning light for the front passenger.

Refer to the Owner's Manual for detailed information regarding seat belt usage.

### TIRE PRESSURE MONITORING SYSTEM (TPMS)

This system monitors tire pressure. Please remember, this system does not detect a sudden drop in tire pressure (for example, a blowout while driving). It also does not monitor the air pressure in the spare tire.

Tire pressure is affected by temperature. Low outside temperature causes lower tire pressure. This may cause the low tire pressure warning light to illuminate.

If the low tire pressure warning light illuminates, check the tire pressure in all four tires. To turn the low tire pressure warning light off, adjust the low tire pressure to the recommended COLD tire pressure shown on the Tire and Loading Information label located in the driver's door opening.

If TPMS is not functioning properly, the low tire pressure warning light will flash for approximately 60 seconds when the key is turned on. After 60 seconds, the light will remain on. Have the system checked by a NISSAN dealer.

#### FRONT-PASSENGER AIR BAG STATUS LIGHT

This vehicle is equipped with the Nissan Advanced Air Bag system. Under some conditions, depending on the type of occupant or object detected in the front passenger seat by the occupant classification sensor, the front-passenger air bag is designed to automatically turn **OFF**. When the front-passenger air bag is **OFF**, the front-passenger air bag status light will illuminate\*. For example:

- When the system detects that the front-passenger's seat is occupied by a small adult, child or child restraint as outlined in the Owner's Manual, the will illuminate to indicate that the front-passenger air bag is OFF and will not inflate in a crash.
- When the front-passenger's seat is occupied and the passenger meets the conditions outlined in the Owner's Manual, the will not illuminate to indicate that the front-passenger air bag is operational.

\*When the system detects that the front-passenger's seat is unoccupied, the passenger air bag status light will not illuminate even though the front-passenger air bag is OFF.

Refer to the Owner's Manual for detailed information regarding the Nissan Advanced Air Bag System.

## REMOTE KEYLESS ENTRY SYSTEM (if so equipped)

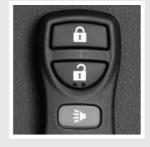

## **LOCK DOORS**

Press the fabutton to lock all doors.

### **UNLOCK DOORS**

Press the abutton once to unlock the driver's door only. Press the button again within 5 seconds to unlock all doors.

### **USING THE PANIC ALARM**

Press and hold the button for longer than 0.5 seconds. The panic alarm will sound and the headlights will stay on for 25 seconds. The panic alarm stops when it has run for 25 seconds, or when any button is pressed on the keyfob.

### SILENCING THE HORN BEEP FEATURE

- To deactivate Press and hold the  $\frac{1}{1}$  and  $\frac{1}{1}$  buttons for at least 2 seconds.
- $\blacksquare$  To activate Press and hold the  $\bigcirc$  and  $\bigcirc$  buttons for at least 2 seconds once more.

## **INTELLIGENT KEY SYSTEM (if so equipped)**

This system allows you to lock or unlock your vehicle and start the engine with an Intelligent Key unit which may be carried in a pocket or purse.

**NOTE:** It's important to make sure the Intelligent Key is "on your person" (i.e., pocket or purse) when locking or unlocking the doors.

- The operating range of the door and hatchback/trunk lock/unlock function is approximately 31 in (0.8 m).
- Locking the vehicle Push any door handle request switch on once.
- Unlocking the vehicle Push any door handle request switch of once. The corresponding door will unlock.
   Push the door handle request switch of again within 1 minute; all other doors will unlock.

## **OPENING THE REAR HATCH (if so equipped)**

- Push the rear hatch door request switch 02.
- Push the release switch 03 under the rear hatch handle.
- Pull up and out on the handle to open rear hatch.

### **OPENING THE TRUNK (if so equipped)**

- Push the trunk request switch 02.
- Push the release switch 03 under the trunk handle.
- Pull up and out on the handle to open the trunk.

## XTRONIC CONTINUOUSLY VARIABLE TRANSMISSION (CVT) ™ (if so equipped)

- The Xtronic CVT<sup>™</sup> does not produce a gear change sensation like traditional automatic transmissions.
- R (Reverse) speed, for CVT vehicles, is limited to 15 MPH (25 km/h).

## STARTING THE ENGINE WITH CVT (Intelligent Key models only)

- Push the ignition knob in.
- Confirm the Intelligent Key warning light is illuminated green.
- Turn the ignition knob to start the engine.

## TURNING THE ENGINE OFF WITH CVT (Intelligent Key models only)

- Shift transmission into P (Park).
- Turn ignition knob to **LOCK** position.

#### OVERDRIVE (O/D) OFF SWITCH

- Each time your vehicle is started, the transmission is automatically "reset" to Overdrive on.
- To turn Overdrive mode off, push the O/D OFF switch of . The OFF light in the instrument panel will illuminate.
- Use the Overdrive off mode when you need improved engine braking.

The transmission in your Versa requires a special fluid (NS-2) available only at your NISSAN dealer. No other fluid will meet the exact requirements of the new Xtronic CVT™.

## 6-SPEED MANUAL TRANSMISSION (if so equipped)

#### LOCK OUT

■ In 6-speed manual transmission equipped vehicles, the shift lever is equipped with a Reverse lock-out feature that prevents accidental selection of Reverse (instead of 1st gear).

#### SHIFTING TO REVERSE

Lift up on the collar just below the shift lever, then move it to the left and up into Reverse.

## PUSH RELEASE BUTTON (Intelligent Key Models with Manual Transmission only)

- The ignition knob can only be turned to the LOCK position when the PUSH release button of has been pressed.
- The Intelligent Key lock warning light blinks and the buzzer sounds if the PUSH release button has not been pressed completely when the ignition knob is turned to the LOCK position.

#### MANUAL CLIMATE CONTROL

## 01 FAN SPEED CONTROL DIAL

Turn the fan speed control dial \$\$ to the left (slow) or right (fast) to control fan speed.

## 02 TEMPERATURE CONTROL DIAL

Turn the temperature control dial for the desired temperature. Turn the control dial to the left for cold air or right for hot air.

## 03 AIR FLOW CONTROL DIAL

Turn the dial to select the following air flow outlets:

- Air flows from the center and side vents.
- Air flows from the center, side, and foot vents.
- Air flows mainly from the foot vents.
- Air flows from the defroster and foot vents.
- Air flows mainly from the defroster vents.

#### 04 DEFROSTING/DEFOGGING FRONT AND SIDE WINDOWS

- Move the air intake lever 07 to the ♠ position.
- Turn the air flow control dial 03 to the front window defroster mode \$\pi\$.
- Turn the temperature control dial 02 left or right to set the desired temperature.
- To set the defroster on high, turn the fan speed dial 01 all the way to the right.
- A/C will automatically turn on for enhanced defrost/defog performance.

#### 05 REAR WINDOW DEFROSTER

Push the rear window defroster switch  $\overline{\psi}$  on. Push the switch again to manually turn the defroster off. This function automatically turns off in approximately 15 minutes.

## 06 A/C ON/OFF BUTTON

Press the A/C button to turn the A/C on or off.

### 07 AIR INTAKE LEVER

- Move the air intake lever to the position to draw in fresh outside air.
- Move the air intake lever to the <a> position to recirculate air inside the vehicle.</a>
- Move the air intake lever to the ⇔ position for maximum cooling when using the air conditioner.

## FM/AM/SAT\* RADIO WITH CD CHANGER (if so equipped)

The antenna should be placed in the rearward position for maximum radio reception.

#### 01 SEEK/TRACK/FILE BUTTON

Press the **SEEK/TRACK/FILE** button to skip from one track to another on a CD. Each time the button is pressed, the CD will advance or skip back one track.

#### 02 TUNE/FF:REW/FOLDER BUTTON

Press the **TUNE/FF·REW/FOLDER** button to manually tune the radio. If playing a CD, press to fast forward or rewind a CD. If playing a CD that is formatted for MP3s, press the **TUNE/FF·REW/FOLDER** button to skip folders. Press and hold the button to fast forward or rewind an MP3 CD.

#### 03 RADIO BUTTON

Press the **RADIO** select button to change the band to either FM, AM or SAT\* radio stations.

### 04 SCAN BUTTON

Press the **SCAN** button to quickly scan through each broadcasting station. The tuner will pause for 5 seconds on each broadcasting station.

## 05 PRESET A·B·C BUTTON

Press the **PRESET A·B·C** button until you reach the desired setting. The radio is equipped with three separate banks, each with six station presets. You may store any combination of FM, AM or SAT\* radio presets on each bank.

#### 06 CD PLAY BUTTON

Press the CD button to begin CD play.

### 07 SCROLL BUTTON

Press the **SCRL** button to scroll through CD/MP3 text that is too long to be displayed on the first line of the display.

### 08 AUX BUTTON

Press the **AUX** button to play a compatible device such as an MP3 player when it is plugged into the **AUX IN** jack.

### 09 AUDIO BUTTON

Press the **AUDIO** button to change the audio settings. Adjust the bass, treble, balance, fade and Speed Sensitive Volume (SSV) and beep on/off by pressing the **AUDIO** button until the desired mode appears in the display. Press the **TUNE/FFREW/FOLDER** button up or down to adjust to the desired level.

## 10 STATION AND CD SELECT BUTTONS

To store a station in a preset you must first select A, B, or C memory bank by pressing the **PRESET A·B·C** button and tune to the desired FM, AM or SAT\* station. Then press and hold the desired station select button for at least 2 seconds. When the preset indicator illuminates, a beep will sound, indicating memorization is complete. To retrieve a previously set station, select the memory bank where the preset was set, then press the corresponding station select button.

## 11 LOAD BUTTON

**LOAD A SINGLE DISC** - Press the **LOAD** button for less than 1.5 seconds. Select the loading slot by pressing the CD insert button (1-6), then insert the CD.

**LOAD UP TO 6 DISCS** - Press and hold the **LOAD** button for less than 1.5 seconds. The slot numbers (1-6) will illuminate on the display when the CDs are loaded into the charger.

\* SAT presets are only available on SAT equipped vehicles.

# 12 CLOCK/SET ADJUSTMENT (if so equipped) CLOCK OPERATION

Pressing the CLOCK button displays the clock with the radio on or off. Press the CLOCK button again to turn off the clock display.

#### **CLOCK SET**

- Press and hold the CLOCK button for more than 1.5 seconds to enter the clock set mode.
- 2. Press the SEEK/TRACK/FILE button 01 to adjust the hours.
- 3. Press the TUNE/FF-REW/FOLDER button 02 to adjust the minutes.
- 4. Press the **CLOCK** button again to exit the clock set mode.

## STEERING WHEEL SWITCHES FOR AUDIO CONTROL (if so equipped)

- To choose Preset A, B, C, CD or SAT (if so equipped) press SOURCE repeatedly.
- The tuning up or down \$\rightarrow\$ switch can be used to perform the following:

  - If the vehicle is equipped with a CD changer, push and hold for more than 1.5 seconds to change between CDs.

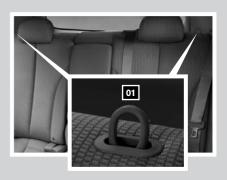

### **FRONT SEAT ADJUSTMENTS**

- Pull up on the lever ou under the front of the seat and slide backward or forward; release.
- Lift the lever 2 on the side of the seat to adjust your seatback backward or forward; release when you have found a comfortable angle and the seat belt fits properly.
- Pull up or push down the adjusting lever 03 repeatedly to adjust the seat height.

## FOLDING DOWN THE REAR SEATS (if so equipped)

Either side of the seatback (or both) can be folded and has it's own release.

Pull the release 01 on the top of the seatback to fold rear seat down.

02

01

## SUNROOF CONTROLS (if so equipped)

The ignition switch must be in the ON position to operate the sunroof.

#### TILTING THE SUNROOF

- $\blacksquare$  To tilt the sunroof down, push the tilt switch toward the  $\subset$  5 02 position.

#### SLIDING THE SUNROOF

- To fully open the sunroof, push the switch toward the <
   open to position.
- To fully close the sunroof, push the switch toward the ∠ 01 position.
- To open or close the sunroof part way, push the switch in either direction (o1 or o2) while the sunroof is sliding to stop it in the desired position.

This easy-to-use Quick Reference Guide is intended to help you more fully appreciate some of the unique features and functions of your new vehicle. However, it is not intended to replace your Owner's Manual. The Owner's Manual contains more detailed information to help you better understand the important safety warnings, features, operation, and maintenance of your vehicle.
